

VANCOUVER POLICE DEPARTMENT | *Beyond the Call*

October 15, 2020

I&P Unit Reference: 20-604A

Dear Rafferty Baker

Re: Records Access Request / 20-0604A

I write further to your FOI request for a copy of ‘any thermal imaging material captured by drone or other means at Vancouver’s Oppenheimer Park between January 2018 and June 2020’. You also requested related emails and other materials.

Thank you for your willingness to speak about this request and clarify the information that you seek.

Attached please find the records responsive to your request.

The VPD has deployed a VPD Drone once in relation to recording of information at Oppenheimer Park. Per the Responsive Records, this deployment was in overwatch support of VPD Emergency Response and Patrol Units clearing Oppenheimer Park after a reported shooting on 2019-12-12 within the park. The victim was shot in the knee. Consistent with policy, the collected video information was retained as it related to a specific police investigation

Yours truly,

VANCOUVER POLICE DEPARTMENT
