Dear [REDACTED]:

***Re: Records Access Request***

We are replying to your request for information that was received in our office on September 26, 2022. In that request, you sought access to:

“The total number of reported cases of violence/harassment towards Asian and East Asian (i.e. Chinese, Korean, Japanese) people, since March 11, 2020 including the following:

- a) whether these cases were suspected hate crimes and/or recorded as racially prompted
- b) the neighbourhood or location of reported cases
- c) if the incident involved verbal harassment, physical assault or both
- d) if charges were laid and if so what the charges were
- e) the gender of each victim”.

Your request was forwarded to the Diversity, Inclusion & Indigenous Relations Section (DIIRS) / Hate Crimes Unit who were able to provide data responsive to items a) to d) as listed above. Information responsive to item e) could not be retrieved in this search format.

Attached please find the requested information.

The incidents shown on the attached involve bias, prejudice, or hate-related themes from 2020-2022. These totals include hate crimes as well as other hate themed incidents (i.e.: incidents which may not meet the legal definition of a hate crime or criminal code offence yet are believed to be motivated by bias, prejudice, or hate). An incident’s coding may change as an investigation progresses, and the fact pattern presented by the evidence demonstrates that the initial coding is not supported by the evidence. As such, there may be slight data variations as time passes.

Information that could unreasonably invade the privacy of other persons has been removed from the data results. Particular emphasis in this case has been placed on section 22(3)(b) of the *Freedom of Information and Protection of Privacy Act* (“the Act”). An excerpt of this provision is attached. Information may also have been removed on the basis of additional sections of the Act.
