Dear [REDACTED]

Re: Records Access Request

We are responding to your request for information received on December 4, 2025. In that request, you sought access to the following Vancouver Police Department (VPD) records:

*Whether the VPD conducts annual or recurring POPAT assessments for serving officers.*

*Any statistical summaries from 2020–2025, including:*

- a. Average POPAT times*
- b. Number of officers tested per year*
- c. Pass/fail counts or percentages*
- d. Any internal aggregate reports related to officer fitness assessments*

We consulted with the VPD Recruiting Section regarding your request for POPAT-related information. We have been advised that, due to current system limitations, retrieving, producing, and preparing the “average POPAT times” requested in item 2(a) would require significant time and personnel resources. Obtaining this information would require a manual review of each file, a task that would unfortunately interfere with the operations of Recruiting. We are therefore not able to provide the POPAT data requested and rely on section 6(2) of the Freedom of Information and Protection of Privacy Act in support of this position.

The VPD Recruiting Section was able to provide the following information in response to the remaining portions of your request.

On whether VPD conducts annual or recurring POPAT assessments for serving officers:

POPAT testing is not a mandatory requirement for serving members. **Members may voluntarily participate in the POPAT for increment purposes that may be counted toward step increases within rank.**

Number of officers tested per year:

2020 – 21 members  
2021 – 79 members (2 unsuccessful)  
2022 – 25 members  
2023 – 22 members (1 unsuccessful)  
2024 – 29 members

2025 – 23 members

Pass/fail counts or percentages:

Over the five-year period, three members were unsuccessful, resulting in a 98.5% pass rate.

Internal aggregate reports related to officer fitness assessments:

The VPD offers a fitness test for increment purposes. The test consists of the following components:

- 1.5-mile run
- Grip strength
- Sit and reach (flexibility)
- Bench press
- Leg press
- Push-ups
- Sit-ups

Participation results are as follows:

- 2020 – 14 members participated (all passed)
- 2021 – 46 members participated (all passed)
- 2022 – 62 members participated (1 unsuccessful)
- 2023 – 61 members participated (all passed)
- 2024 – 64 members participated (all passed)
- 2025 – 41 members participated (all passed)

This reflects a 99.45% pass rate over the five-year period.
